How can we intervene?*

This workshop will discuss the impact of methamphetamine abuse on children and how our social service system can offer support to children affected by this drug abuse.

Featuring Deborah Durkin, Minnesota Department of Health, and LeeAnn Mortensen, Minnesota Institute of Public Health.

Tuesday – October 24

Children with disabilities have a higher risk of abuse or neglect than the general population of children. What strategies can we use to help protect children with physical, behavioral and learning disabilities?

*Adverse Childhood Experiences Study:
What can we learn?*

This study found that adverse childhood experiences, such as child sexual abuse or domestic violence, has an impact on people's health as adults. We will discuss how to use this data to drive our programs and policy decisions.

Featuring Connie Skillingstad, Prevent Child Abuse Minnesota; Marilyn Rivkin, Minnesota Organization on Adolescent Pregnancy, Parenting and Prevention; and Grit Youngquist, Ramsey County Public Health.

Additional speakers for these events are being finalized. Please check our Web site for updates.
