

Minnesota Circle of Parents 2019 Participant Survey Results

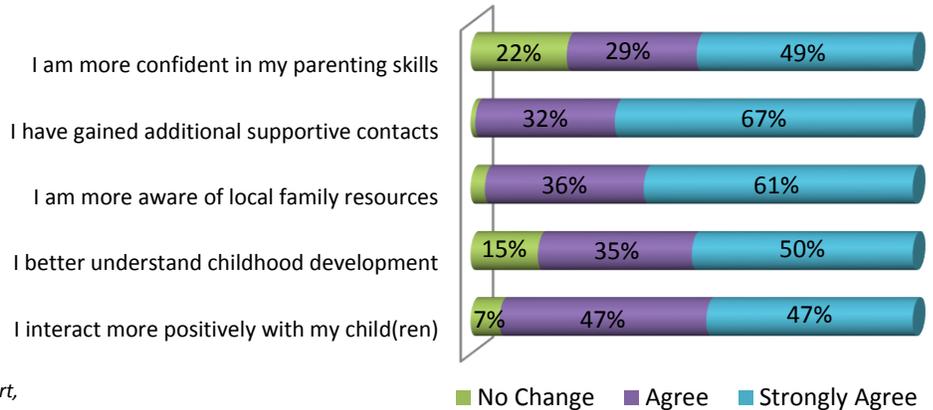

Circle of Parents is a mutual self-help support group program offered to parents statewide. As part of this program, MCCC trains volunteer parent facilitators to lead parent groups (as well as children’s programs) to support and strengthen families. One hundred surveys were received August 2018 - February 2019. Overall, results showed that Circle of Parents effectively creates supportive environments for parents to connect, share, learn, and improve their parenting skills.

When asked if they would recommend Circle of Parents sessions to other parents and/or caregivers, 100% of survey respondents said yes.

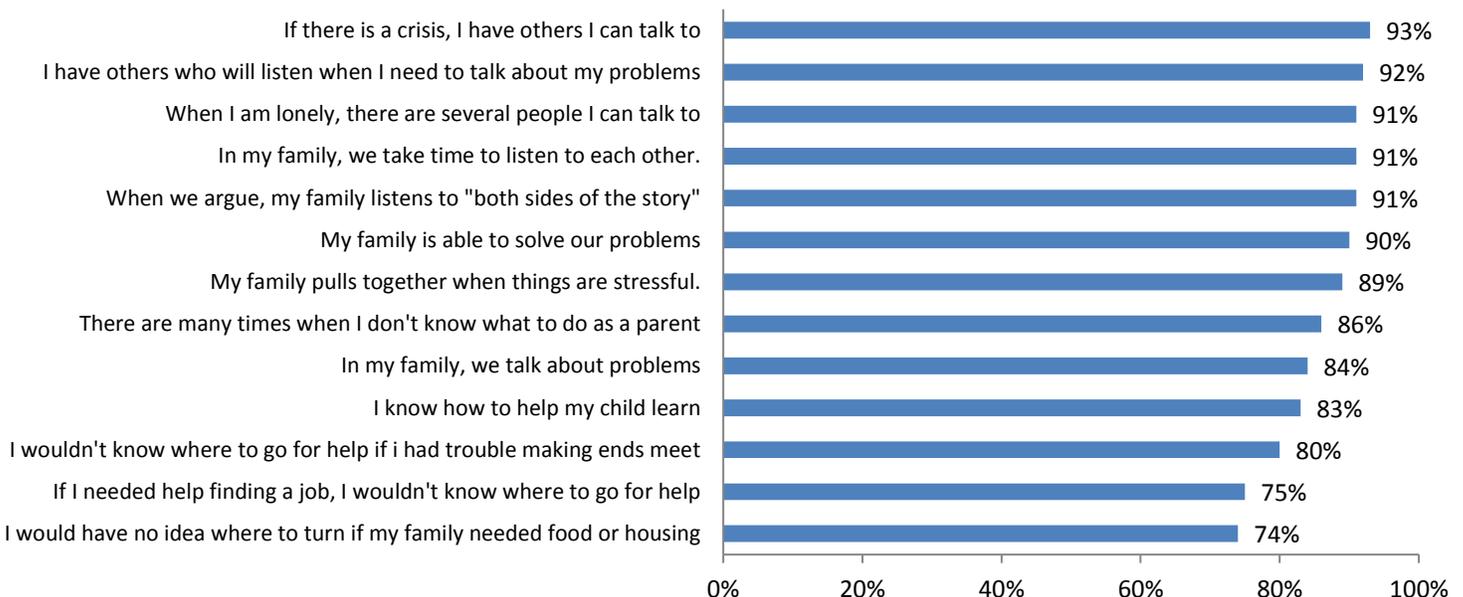

**Including community education, mental health, job training, health care, crisis nursery, social services, WIC, ECFE/Head Start, mentoring programs, and food shelves*

As a result of attending parent sessions...

Percent of Respondents Reporting Improvement After Attending Circle of Parents

"Before groups I always relied on my mom to discipline my child... but after talking to other parents and going to group I gained more confidence in parenting."

"Every parent needs an outlet."

"I always tell others because it is about building connections and a sense of community."
